

Please do not give LPFM stations over current FM translator service. I very much enjoy AIR 1 and I support its continued broadcast in my area. If a LPFM bumps the local FM translator for AIR 1 (90.1) then I would not be able to receive programming that I regularly enjoy. Clearly the airwaves must be open to all points of view so that a wide variety of needs can be met. The programming on AIR 1 is of great interest to many people. Thank you.
